

FIG. 1

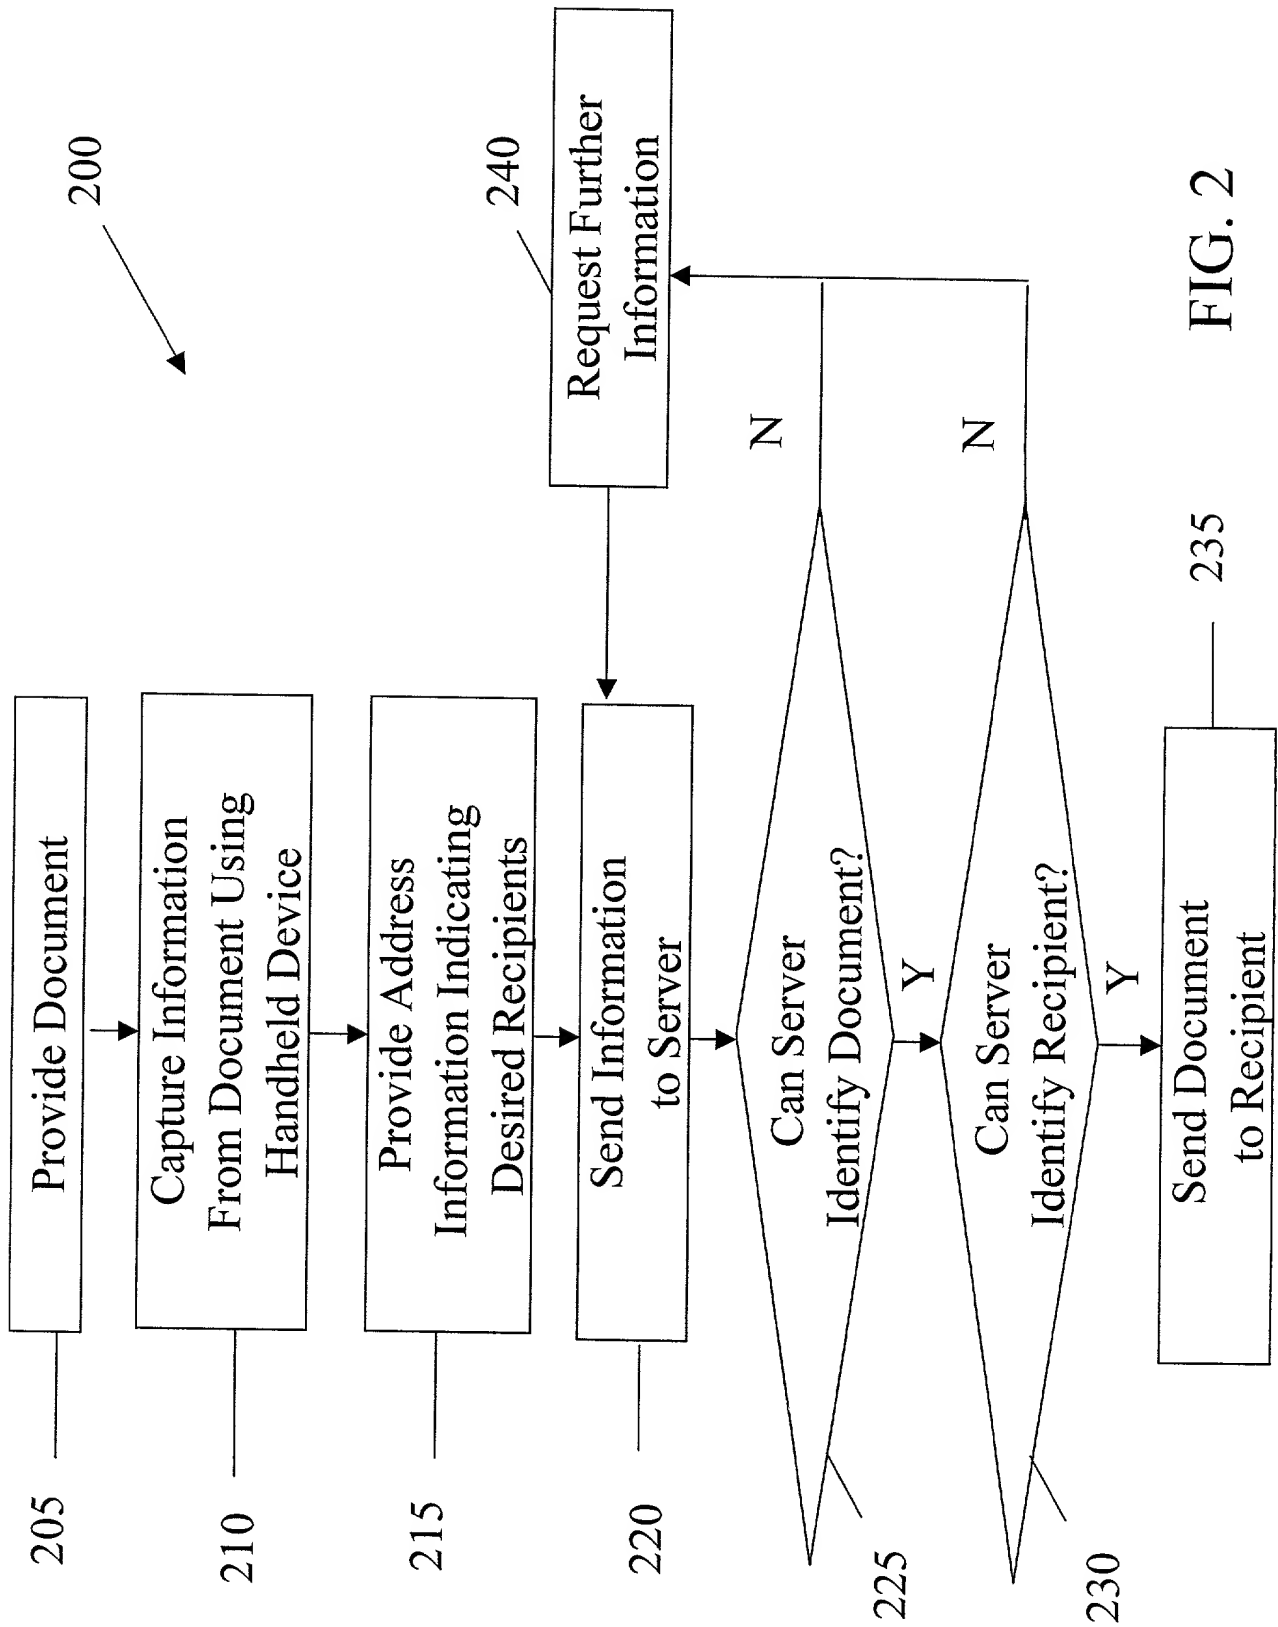

FIG. 2

FIG. 3 is a block diagram of a computer system 300. The system 300 includes a processor 305, memory 310, mass storage device 315, graphics subsystem 340, and output devices 350. The system 300 also includes peripheral devices 320, input devices 330, portable storage medium drives 335, a display 345, and audio means 325. The processor 305, memory 310, mass storage device 315, graphics subsystem 340, and output devices 350 are connected to a system bus 355. The peripheral devices 320, input devices 330, portable storage medium drives 335, display 345, and audio means 325 are connected to the system bus 355 via a bus interface 360.
